Java Developer | Fullstack Developer | Mobile Application Developer | Immediate Joiner

PROFESSIONAL SUMMARY

Aspiring Software Developer with hands-on experience building AI-powered Flutter mobile applications and real-time Firebase integrations. Delivered 3 end-to-end projects incorporating machine learning models (OCR, CNN, Linear Regression) with 75–82% accuracy. Completed internships in mobile app development and Unity-based multiplayer game development. Seeking a **Fullstack Developer / Software Developer** role as an immediate joiner.

TECHNICAL SKILLS

Languages: Java, Python (Basics), SQL, Dart

Mobile & Web: Flutter, Android Studio, HTML, CSS

Databases: Firebase Firestore, MongoDB

Frameworks & Libraries: Flask, OpenCV, REST APIs

ML / AI: CNN, Random Forest, Donut OCR, Transformer Models

Tools & Version Control: GitHub, Google Maps API

Concepts: OOP, Machine Learning Basics, Agile Development

ACADEMIC PROJECTS

Intelligent Money Manager - AI-Driven Expense Automation With Privacy

Flutter · Python · Flask · Firebase Firestore · Donut OCR Model · Linear Regression

- Engineered an AI-powered expense tracking Flutter app that automated receipt scanning, reducing manual data entry to zero.
- Integrated Donut OCR model to extract merchant name, amount, date, and category from receipt images, achieving ~75% extraction accuracy.
- Architected real-time transaction storage and retrieval using Firebase Firestore, enabling instant data sync across sessions.
- Deployed a Linear Regression classifier for automated expense categorization and spending analysis, reaching ~80% prediction accuracy.

AI-Enhanced Road Damage Reporting System

Flutter · Firebase · Python · OpenCV · CNN · Transformer Models · Geolocation | Role: ML Developer

- Built an end-to-end road damage detection pipeline using OpenCV and CNN, classifying damage types from images with ~82% accuracy.
- Implemented GPS-based geo tagging to automatically associate each damage report with precise road coordinates.
- Developed a Flutter mobile interface enabling users to capture, annotate, and submit road damage reports directly from the field.
- Integrated Firebase backend for persistent report storage and real-time retrieval by administrators.

Wheelchair Accessibility Mobile Application

Flutter · Dart · Google Maps API | Role: Flutter Developer

- Designed and built a Flutter app to help users discover wheelchair-accessible locations, improving mobility planning for users with disabilities.
- Embedded Google Maps API for live navigation and place discovery with accessibility filters.
- Validated concept through APK prototype testing, confirming core usability flows end-to-end.

INTERNSHIPS

Flutter Mobile App Development Intern - Kevell Corp, Madurai

Dec 2024 | 15 Days

- Developed core modules - login, student data handling, and room allocation for a hostel management application using Flutter.

- Implemented Firebase-based workflows to support real-time student data operations and admin-side updates.

VR Multiplayer Game Development Intern - Raiden Studios, Madurai

May 2024 - Jun 2024

- Contributed to multiplayer game functionality in Unity, enabling gameplay sessions for up to 4 concurrent players.
- Resolved player synchronization issues that improved real-time interaction quality and reduced session-level bugs.

EDUCATION

B.E., Computer Science & Engineering - Thiagarajar College of Engineering, Madurai

2023 – 2026 | CGPA: 7.64 / 10

Diploma in Computer Engineering - Arasan Ganesan Polytechnic College, Sivakasi

2020 – 2023 | 93% | Department Rank Holder

SSLC - Sacred Heart Girls Hr. Sec School, Srivilliputhur

2020 | 84.2%

CERTIFICATIONS & ACHIEVEMENTS

- AWS Academy Graduate – Cloud Foundations, Cloud Developing, Data Engineering (AWS Academy)
- Data Analytics Job Simulation – Deloitte (via Forage)
- Critical Thinking in the AI Era – HP LIFE | HP Foundation
- Cybersecurity Essentials & Introduction to Packet Tracer – Cisco Networking Academy
- Digital Skills: User Experience – Accenture
- iTech Hackfest 2025 – National Level Hackathon Regional Round, Thiagarajar College of Engineering
- Smart Student Hackathon Preliminary Round – IIT Madras (via Unstop)
- Cyber Security and Ethical Hacking Workshop – NIT Trichy
- Diploma Department Rank Holder – Arasan Ganesan Polytechnic College, Sivakasi (2020–2023)
